

Project 2: Sales Website

Instructions: Project 2 consists of creating a sales webpage. The purpose of project 2 is to apply the knowledge of colors, image manipulation, animation, slideshow, and modal window using CSS to create a simple sales page. You can pick any items to sell but project 2 MUST have the following requirements:

- One webpage project.
- At least TWO different animations. You can pick among translation, scale, or rotation animation learned in class, chapter 6: CSS animation.
- ONE slideshow with THREE slides. The slideshow should have backward effect, delay between slides, and different background color. The slideshow could have only images, text, or images and text.
- TWO images with effect and text message:
 - One image has a message text on top of the image. The message text should have background color with opacity, and border.

- The other image has linear-gradient of two different colors. The image should have a message text.

- SIX different products with description (image, product name, brief product description, price, and ADD TO BAG link. The ADD TO BAG link should open a modal window, and each product should have a modal window.
