

## Project 3: Professional Portfolio

**Description:** Project 3 consists of creating a professional/academic portfolio. The purpose of project 3 is to use the knowledge of HTML, CSS, and Bootstrap 5 to create a simple portfolio website.

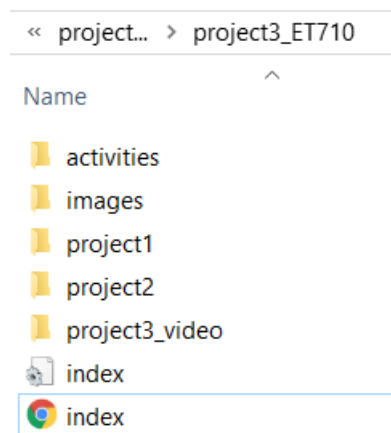

Student can pick the layout structure of their website, but the portfolio website should:

- 1. Be responsive website**

All elements and image of the entire project 3 should be responsive.

- 2. Have folder and files organization**

Files should be organized in their respective folder and subfolders

- 3. Navigation tabs**

The navigation tabs should have a scrollspy effect, and collapsible when change to small/medium screen size.

- 4. Animation**

At least one different animation.

- 5. Introduction picture**

At least one introduction picture of yourself or a picture relative to your major.

- 6. Introduction paragraph**

Introduce yourself. In the introduction, you should include the following info:

- Your current major.
- Future inspiration: plan after graduation, and what field do you plan to achieve your career goals.

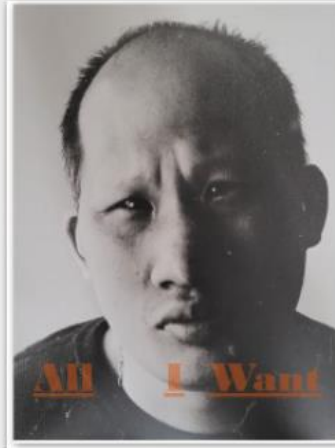

## 7. Project section

Use cards to design the project section. In the project section, you should introduce project 1 and 2. In the card presentation, it should show an image of the project and a title.

### Web Technology Projects

HTML Project: Dreaming Places

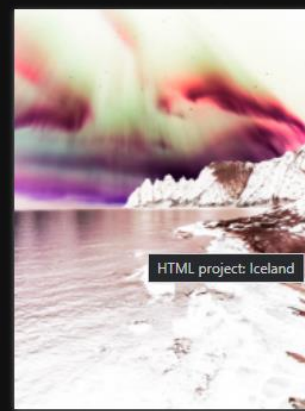

HTML and CSS Project: All I Want!

The card you have a hover effect, which is a filter

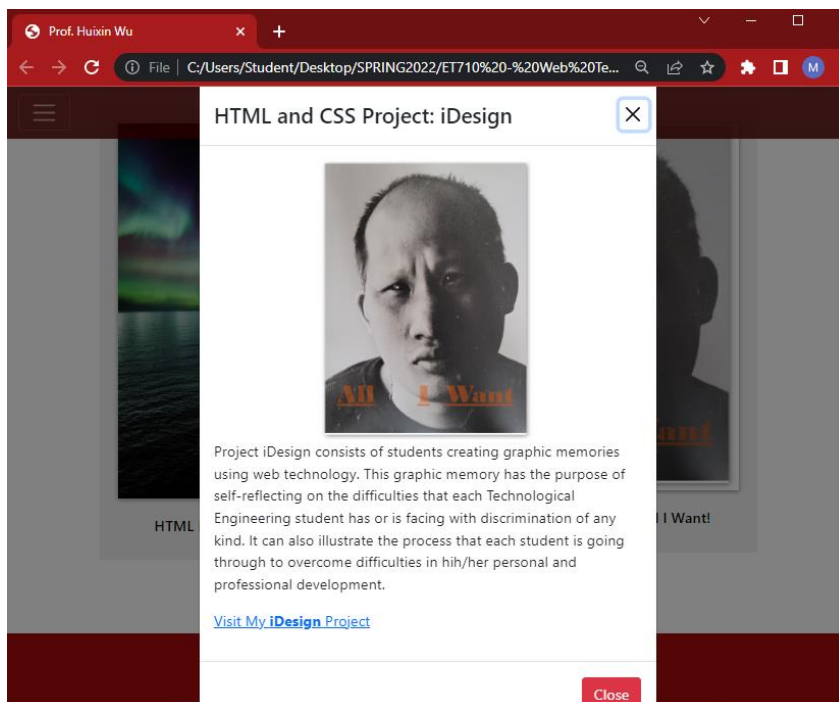

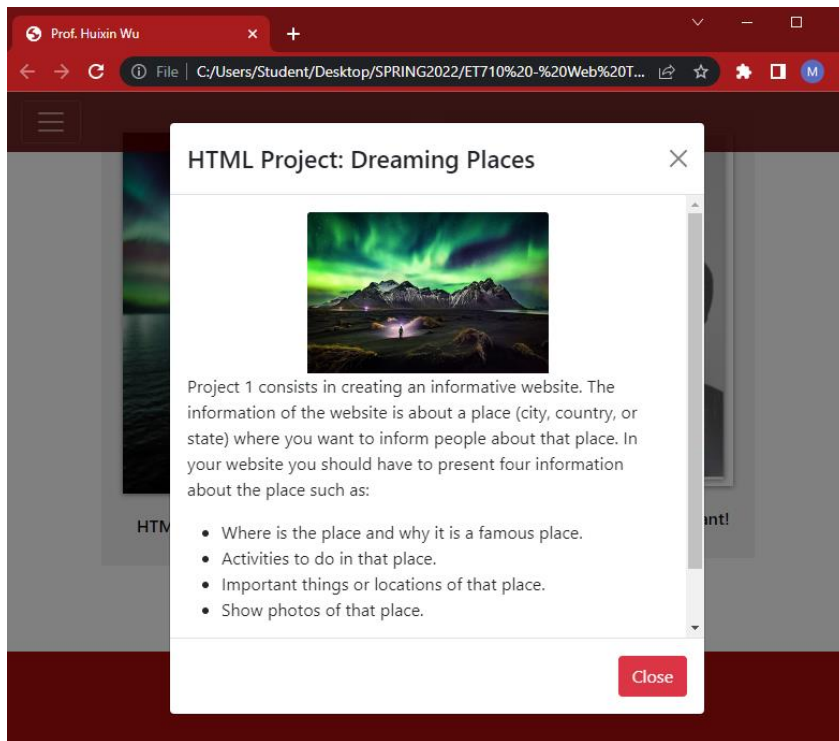

HTML Project: Dreaming Places

On hover

HTML Project: Dreaming Places

When click on the card, it should open a modal window. The modal dialog should have to different close button, modal title, project image, the project description and the reason/s why you picked the topic, and a link to the project.

8. The Class Activities section should have three cards; HTML, CSS, and Bootstrap activities card

Each card should have an image relative to the topic, title, subtitle, description of activities, and links to each activity.

- The HTML activity that should have a link to HTML Basic activity.
  - The CSS activities that should have three links: Color and images, animation, and responsive webpage activity.
  - The Bootstrap activities that should have three links: basic informative webpage, carousel, and modal window activity.
9. The contact information should have, phone number, email, address, and social media icons that will link to its respective website. The information does not need to be real. At the end of the footer, it should have the following text:

\_\_\_\_\_ Portfolio © 2022 by \_\_\_\_\_  
*This webpage is a template to create a portfolio website. All information and materials used are ONLY for educational purposes.*
