# Animation Activity

Activity 1) Create a zoom in and zoom out effect to an image with the following specifications:

- The image should zoom in-out in **five** different location in the computer screen.
- Each time, the image should have different size.

First image

Zoom in   *Zoom out completely*

Second image

Zoom in   *Zoom out completely*

Third image

Zoom in   *Zoom out completely*

Fourth image

Zoom in   *Zoom out completely*

Fifth image

Zoom in   *Zoom out completely*

Activity 2) Create two circles going to different edges in the screen with the following specifications:

- The circles change the color when they reach to an edge.
- When both circles meet, they change the shape to square.
- The circles should move to four edges.
